

Infinity Festival 2022 Announces Art+Tech Exhibition — With Over 25 Artists Showcasing Fine Art Inspired by Technology

ART+TECH underscores the intersection of fine art and innovative technology

HOLLYWOOD, CA / OCT. 27, 2022 / [Infinity Festival](#), the multi-day annual event which brings together Silicon Valley innovators with Hollywood's leading storytellers, today announced a powerhouse lineup of artists to showcase their work at the festival's ART+TECH gallery. Curated by Lisa Jordan, the exhibition, which spotlights the intersection of fine art and emerging technologies, will feature a breadth of work including a world premiere of Marilyn Minter's social media filter project to raise funds for Planned Parenthood created by ADLAR Studio on Unity, a hybrid physical/digital installation by Carlos Luna James, and a Crypt Gallery installation powered by Metasill. An immersive VR experience, Be_Yond, from surface artists Lisa Donohoe and Brynn Gelbard of Londubh Studio in collaboration with Polish-based tech company Nomtek will also be on display. The gallery, featuring a total of 26 artists, will be open from 10AM-9PM on Thursday, November 3rd, and 10AM-5PM on Friday, November 4th at Goya Studios Hollywood.

ART+TECH celebrates the innovative forms with which artists express themselves, from painting and sculpting to programming and coding. The gallery features both local and internationally known artists working in cutting-edge mediums including artificial intelligence, augmented reality, virtual reality and motion graphics.

MARILYN MINTER

Marilyn Minter's personal brand of Photorealist painting examines contemporary notions of beauty. The artist currently lives and works in New York, NY. Her iconic works are held in the collections of the Solomon R. Guggenheim Museum in New York, the San Francisco Museum of Modern Art, and the Museum of Contemporary Art in Los Angeles, among many others.

CARLOS LUNA JAMES (MGOGLKTKO)

MGOGLKTKO is a multimedia installation artist who uses sci-fi, fantasy, culture and technology to explore his visions of utopian worlds. He seamlessly combines digital and physical

art to create the perfect immersive experience, incorporating digital screens, projectors, sound design and video mapping into his installation work. His installations have been hits at major Art Fairs and gallery shows across the US, along with the prestigious auction house at Sotheby's London UK. His NFT collaborations include the prestigious TIME Magazine, Timbaland and Jake Paul.

THE CRYPT GALLERY powered by METASILL

The Crypt Gallery is the world's first NFT gallery in the hospitality industry. Currently located at Dream Hollywood and Dream Downtown in New York, guests are able to visit 24/7 and experience digital art in an entirely new way. With the aim of bringing the digital marketplace to life, their goal is to create interactive and memorable in-person events and experiences, while educating and onboarding a new audience. The Crypt Gallery is able to bridge the gap between digital and physical, while providing a whole new level of exposure to artists, collectors, communities and the digital art industry as a whole.

Large scale curations and gallery takeovers have been hosted at these locations for Trevor Jones, Ice Cube, Silly Gabe, Liam Payne, Zedd and Micah Johnson's Aku. Some additional partnerships include creating main showcases for Christie's Auction House NYC and at the ART+TECH Gallery at Infinity Festival Hollywood.

LISA DONOHOE and BRYNN GELBARD LONDUBH STUDIO

Londubh Studio presents Be_Yond, an immersive VR experience from surface artists Lisa Donohoe and Brynn Gelbard of Londubh Studio in collaboration with Polish-based tech company Nomtek.

Londubh Studio was founded in Los Angeles in 2011 by Lisa Donohoe and Brynn Gelbard, two women dedicated to living life on the edge in full color and shimmer and whose art and surface designs are an unapologetic love letter to maximalism and glam.

Specializing in the creation of custom art, surface designs and products for residential, commercial, hospitality and experiential spaces, Donohoe and Gelbard are a secret weapon of the design world, with some of the most notable names in the industry seeking them out for their pristine craftsmanship, unparalleled artistry, and boundless creativity.
